ALL ABOUT WATER SAFETY

With owning a pool also comes responsibility. There are many rules that must be followed around a pool. Protect yourself and your loved ones. Read and educate yourself with all the literature that is available in the pool industry. Insist that your independent pool professional supplies the industry publications that deal with pool safety, maintenance and the DOs and DON'Ts around the pool. There are also many resources for pool safety information on the Internet. PoolSafely.gov and the Pool & Hot Tub Alliance are two of the largest industry resources for water safety publications. Find out more below!

Reading the "safety literature" is vital for the safety of your family. We insist that you read each and every piece of literature that is normally enclosed in your safety package. You should find several important items with which you must become familiar, including:

- 1) "DANGER" no diving area warning sign.
- 2) "No Diving" stickers.
- 3) "Caution" sticker for pool steps.
- 4) "The Sensible Way to Enjoy Your Pool," and additional literature published by The Pool & Hot Tub Alliance (PHTA).

DOWN SYNDROME
Advocacy Program

OUR MISSION:

Our mission is to promote water safety to individuals with Down syndrome and/or other disabilities who are twice as likely to drown due to a lack of water safety skills. Only Alpha Pool Products is dedicated to helping reduce drowning statistics by offering financial support to swim instructors seeking to receive swim certifications to teach a more adaptive approach for individuals with disabilities.
