Simple SHAPES, INSTALLATION, AND
PRE-MANUFACTURED DESIGNS...at **Affordable Prices**

Easy Installation

A LITTLE INCONVENIENCE... A LOT OF REWARDS!

The fact is, your yard will be a construction site. When planned correctly, the inconvenience is manageable and short-lived. The process begins by planning out the location of your pool. Minor excavation will be needed in the area where your new pool will be, and the retaining walls and bracing systems will be set in place. After the retaining walls are secure, the pool's bottom will be formed so it will be ready for the pool liner. Once the liner is in place and all of the final finish processes are completed, simply add options, decking, etc. to complete your pool's look.

Now, all that remains is a lifetime of fun and relaxation.

Affordable Energy Efficient

Based upon Thermoconductivity (W/m•K) or the transfer of heat and cold, Affordable panels rank as the best insulators at a 0.3 W/m•K. Compare this with other materials used for paneling: Steel at 43 W/m•K and Aluminum at 250 W/m•K.

R-10 INSULATION FACTOR!

Scan this QR CODE to view our ICC-ES Certification

Only Alpha Pool Products Affordable Fun Panels are ICC-ES Certified!

ICC-ES is widely recognized in many areas by code enforcement, allowing you to get pool structures approved with less hassle and in more areas! You can be assured you are getting the best and strongest walls in the industry, backed by ICC-ES certification.

LOOK FOR THE MARK!

Code Officials look for the ICC-ES Mark for peace of mind when approving products.

The BEST gets BETTER...

Water is everywhere - community pools, lakes, and rivers. What better way to "waterproof" your loved ones than by teaching them to swim! The lifelong benefits are immeasurable. Children who learn to swim are far less likely to become a tragic statistic from a water accident away from home.

With owning a pool also comes responsibility. There are many rules that must be followed around a pool. Protect yourself and your loved ones. Read and educate yourself with all literature that is available in the pool industry. Insist that your independent pool professional supply the industry publications that deal with pool safety, maintenance and the do's and don't's around the pool. There are also many resources for information about pool safety on the Internet. We recommend contacting The Association of Pool & Spa Professionals. This national organization is the best resource for most swimming pool safety publications.

◀ This **AREA WARNING SIGN** is an example of the signage which must be permanently and conspicuously affixed in the pool area so it can be easily seen by everyone using the pool.

Safety publications can be ordered from the APSP by calling or writing them at the Association of Pool & Spa Professionals, 2111 Eisenhower Avenue, Alexandria, VA 22314 (703) 838-0083; or by visiting the APSP consumer website at www.theapsp.org.

EDUCATE AND SUPERVISE ALL BATHERS

These are examples of safety information and signage. Be sure to ask your independent pool contractor for this information

IMPORTANT!

“No Diving” signage must be installed on the coping around the perimeter of your pool. “Caution” signage also must be affixed to the steps.

This picture is used for photographic informational purposes only and is not a shape available in the Affordable Pool.

only alpha pool products
DOWN SYNDROME
Advocacy Program

OUR MISSION:

Our mission is to promote water safety to individuals with Down syndrome and/or other disabilities who are twice as likely to drown due to lack of water safety skills. Only Alpha Pool Products is dedicated to helping reduce drowning statistics by offering financial support to swim instructors seeking to receive swim certifications to teach a more adaptive approach for individuals with disabilities as well as financially supporting organizations who offer tailored swim lessons to the disability community.

Reading the “safety literature” is vital for the safety of your family. We insist that you read each and every piece of literature that is normally enclosed in your pool liner package. You should find several important items with which you must become familiar, including:

- 1) “DANGER” no diving area warning sign.
- 2) “No Diving” stickers.
- 3) “Caution” sticker for pool steps.
- 4) “The Sensible Way to Enjoy Your Pool,” a booklet published by The Association of Pool & Spa Professionals (APSP).

APSP has other excellent publications that are available. These publications can be ordered by calling or writing them at the Association of Pool & Spa Professionals, 2111 Eisenhower Avenue, Alexandria, VA 22314, (703) 838-0083; or by visiting the APSP consumer web site at www.theapsp.org.

IMPORTANT!

“No Diving” signage must be installed on the coping or the top cap around the perimeter of your pool. “Caution” signage also must be affixed to the steps.

Ask your independent Pool and Spa Professional or contractor about obtaining additional safety information.

The pool photographs in this brochure are for illustrative purposes only. The pools were constructed using individual components from many different manufacturers.
