Steel Wall Construction Components For Swimming Pools

Dreams Become Reality

TRIMAXXP3

The Caribbean in your backyard. A new swimming pool is a long-term investment in your family and quickly becomes the focus of your summertime activities. Nothing beats having fun with your family and friends and the assurance that your pool will endure year after year of activity and fun.

Introducing TRIMAX XP3 steel wall construction components. A pool system that is not only flexible to various sizes and shapes, but also provides critical strength and rigidity to the structure of the pool.

Alpha Advantage Shield Technology

Introducing the "new standard" in steel building materials

What is it?

A proprietary clear coat that contains thermosetting properties that when applied on top of Only Alpha Pool Products highly galvanized steel components, is designed to enhance corrosion resistance extending the longevity of our building materials.

Real Results

Independent engineers conducted a side-by-side comparison test of Only Alpha Pool Products' steel panels and the industry-wide steel panels. They found our competitors' panels ended up with 70% white rust while the Alpha Advantage Shield protected the panels attributing only 5% over the same period of time.

FEATURING

Industry Exclusive

Self-Piercing Riveting Technology...SPERT

Industry
Exclusive

What does this do for my pool?

Utilizing the same technology as the high-end automobile manufacturers, such as Jaguar, Audi and BMW, Only Alpha Pool Products offers a Lifetime Warranty against "SPERT" failure. Our competition's clinch/toggle lock can not only fail during installation but long after, breaking down the entire structural integrity of the wall system.

Over 3,000 Rivets are used in the
body of the Jaguar XJ Series

TRIMAX^{XP3}

Three Bends...Maximum Strength

Wall strength increases dramatically with an additional bend in the steel. Our panels are engineered to be stronger, utilizing the maximum amount of steel in each panel section. Combine this with our Patented Riveting System and you have unparalleled strength throughout the pool installation.

TRIMAX XP3 Construction Components have revolutionized steel wall built swimming pools by their easy installation, durability, and unchallenged strength.

Safety 1st Safety 2nd Safety Always!

Water is everywhere - community pools, lakes, and rivers. What better way to “waterproof” your loved ones than by teaching them to swim! The lifelong benefits are immeasurable. Children who learn to swim are far less likely to become a tragic statistic from a water accident away from home.

With owning a pool also comes responsibility. There are many rules that must be followed around a pool. Protect yourself and your loved ones. Read and educate yourself with all literature that is available in the pool industry. Insist that your independent pool professional supply the industry publications that deal with pool safety, maintenance and the do’s and don’t’s around the pool. There are also many resources for information about pool safety on the internet. We recommend contacting Pool & Hot Tub Alliance. This national organization is the best resource for most swimming pool safety publications.

Educate and supervise all bathers

These are examples of safety information and signage. Be sure to ask your independent pool contractor for this information.

Safety publications can be ordered from the PHTA by calling or writing them at:

Pool & Hot Tub Alliance (Legacy APSP)
2111 Eisenhower Avenue
Alexandria, VA 22314

(703) 838-0083 or by visiting the PHTA consumer website at www.phta.org

This **Area Warning Sign** is an example of the signage which must be permanently and conspicuously affixed in the pool area so it can be easily seen by everyone using the pool.

IMPORTANT!

“No Diving” signage must be installed on the coping around the perimeter of your pool. “Caution” signage also must be affixed to the steps.

Highly Customizable Shapes

From a 5-Year Red Rust Warranty on our Alpha Advantage Shield to an Unlimited Transferable Lifetime Structural Warranty featuring our SPERT technology.

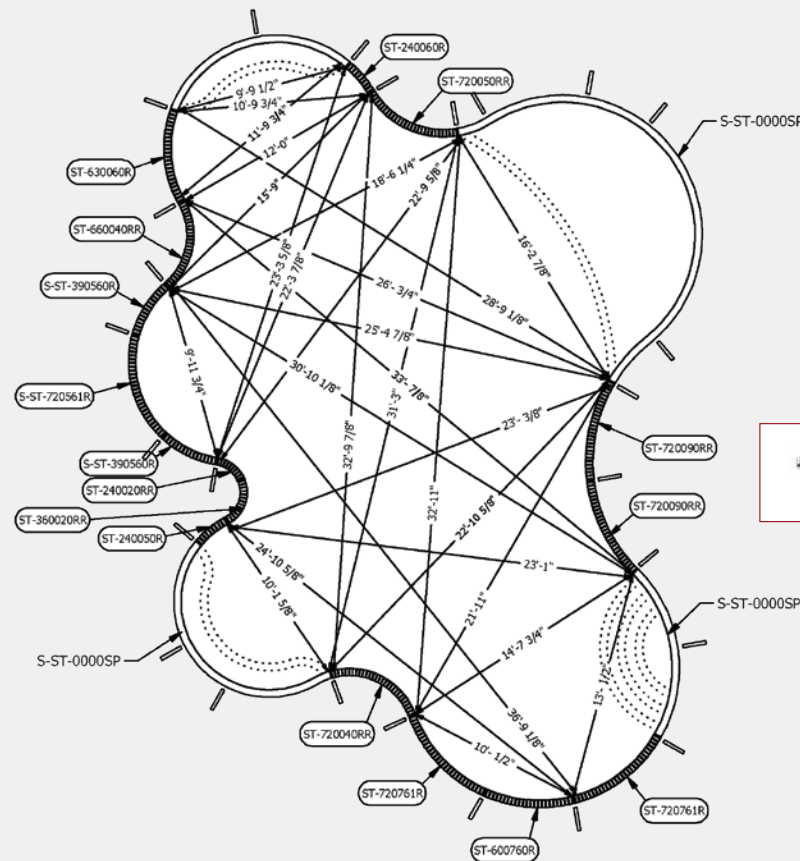

...Our state-of-the-art technology allows us to build any pool, any size, any shape, with excellent quality.

Any Pool

Any Size

Any Shape

No Limitations

From classic to contemporary or geometric to linear. What you envision...can be yours

From Simple to Complex Your Vision Can Be a Reality

Swimming pools come in a variety of shapes and sizes, providing an endless amount of options to make your pool the perfect decision for your family. From free-form shapes to narrow lap pools, there is no wrong answer when it comes to the kind of pool you choose for your family. Important considerations are the available space for an installation and your budget. Pools can be very elaborate or elegantly simple. We encourage you to talk candidly with your independent pool professional to have all your questions answered before they turn over the first shovel of dirt. They are there to assist in making your dreams come true.

Entry Systems For Swimming Pools

Acrylic Fiberglass Steps

The snow-white, acrylic non-skid surface is reinforced with hand-laid, 100% pure fiberglass. Our 100% non-corrosive, easy-to-clean, acrylic-finished fiberglass steps are extremely strong and are impervious to the elements. By utilizing our standard direct support system, our acrylic-surface fiberglass steps install quickly and precisely. Our time-tested, proven gasket system assures an exact fit and permanent bond every time.

Thermoplastic Steps

Vacuum formed from a single sheet of ABS supported BASF Luran® ASA thermoplastic. Our thermoplastic steps are extremely strong, made to withstand the elements and are 100% non-corrosive. By utilizing our "Direct Support" reinforcement support system, our thermoplastic steps install quickly and precisely. Our time-tested, proven gasket system assures an exact fit and permanent bond every time.

Largest Collection of Designs

Locking Straps and Rubber Gasket

Factory installed and easy to mount vinyl liner material

Structural Integrity

100% specialty engineered resins and fiberglass.

No filler, No additives!

The proven Alpha Advantage Shield Technology is embedded into every acrylic fiberglass step to help ensure they remain colorfast and easy to clean.

Alpha Advantage Steel Steps Liner Over Steps for Swimming Pools

State-of-the-Art Manufacturing Processes

- Computer Designed
- Automated Manufacturing
- Highly galvanized coating
- Alpha Advantage Shield
- SPERT Technology
- Highest quality certified 14-gauge copper bearing steel from ONLY USA suppliers

Permanent Form designs are simply filled with gravel and topped with concrete and foam, while Straight Tread designs include both risers and treads.

***Regardless of your Step Design,
exact dimensions allow a perfectly
fit liner on every step.***

From a 5-Year Red Rust Warranty on our Alpha Advantage Shield to an Unlimited Transferable Lifetime Structural Warranty featuring our SPERT technology...

Your Project...Endless Possibilities

Utilizing the most advanced building materials in Steel Technology, Only Alpha Pool Products offers corrosion-resistant, liner-over steps in a Permanent Form as well as a Straight Tread design option allowing you to have the entry system you envision

Accessorize

A pool is a reflection on your individual style. There are many ways to make your pool a one-of-a-kind oasis. Your imagination can run wild when thinking about how you can accessorize your swimming pool to your individual taste.

Only Alpha Pool Products does not manufacture or endorse diving boards or slides. Any use or installation of diving boards or slides must be in strict compliance with each such equipment manufacturers specifications and recommendations, the Pool and Hot Tub Alliance standards, as well as all local building codes and regulations; and recommendations from the American Red Cross and the Consumer Product Safety Commission.

Vinyl Liner Pools **...There is an Advantage!**

- Pool components are manufactured in a controlled environment by machinery and have long manufacturer warranties.
- Easy and least expensive to repair as the pool consists of components.
- Replacing a liner is more economical than resurfacing other pool types.
- Some standard shapes like L-shapes provide a combination of large diving and shallow play areas.
- Can be custom designed to any shape and size and can achieve the high-end look of a concrete pool without the high cost.
- Countless liner designs and color choices.
- Smooth surface is easy to clean and maintain and is skin friendly.
- Quality structures are self-supporting.

Concrete/Gunite Pools **...Disadvantages**

- Most expensive pool in the market and is difficult to clean and maintain.
- Surface is porous and most susceptible to damage caused by water chemistry.
- Must be resurfaced every 7-15 years at considerable cost.
- Plumbing is very expensive to repair as it is encased in concrete.
- Perimeter tile, which is necessary for these pools, is beautiful but requires maintenance and is susceptible to freezing damage.
- Surface can be rough on the feet and skin.
- Correct installation takes months and being concrete, it is prone to cracking and concrete cracks are very difficult to repair permanently.
- Pool is manufactured on site and there are very short if any warranties on pool surface and pool structure.

One Piece Fiberglass Pools **...Disadvantages**

- Even the largest fiberglass pools are at best average in size and advertised sizes don't represent the true size of the usable pool.
- Cannot be custom designed to fit your individual taste, entertainment goals or landscaping desires.
- When the surface fades or deteriorates, it is very difficult and expensive to resurface.
- The structure is not self-supporting and may collapse or buckle if emptied.
- Difficult and expensive to repair and has the potential for very extensive damage.
- Suspiciously short warranties on some color surfaces and no warranties against floating or buckling.

only alpha pool products **DOWN SYNDROME** Advocacy Program

OUR MISSION:

Our mission is to promote water safety to individuals with Down syndrome and/or other disabilities who are twice as likely to drown due to lack of water safety skills. Only Alpha Pool Products is dedicated to helping reduce drowning statistics by offering financial support to swim instructors seeking to receive swim certifications to teach a more adaptive approach for individuals with disabilities as well as financially supporting organizations who offer tailored swim lessons to the disability community.

HOW ARE WE DOING THIS?

We have partnered with Swim Angelfish, the global leader in adaptive swim instruction, to grant scholarships to swim instructors to obtain the Swim Whisperers certification, levels 1-4. This certification provides swim instructors the knowledge and techniques to give kids with special needs the opportunity to achieve successful swim lessons by addressing underlying issues!
